SUMMARY Final-year Software Engineering student at ESPRIT with multiple hands-on internships delivering full-stack applications (Flutter, React, Spring Boot...) for industrial and telecom clients, plus independent, academic and personal projects integrating AI into practical tools. Seeking an End-of-Studies internship in software or full-stack development.

- EXPERIENCE**
- Web Development Intern — Fresenius Kabi**
Bir Drassen, Nabeul (Onsite) · July 2025 – August 2025
- Designed and built a full-stack web app (React, Spring Boot) to centralize and manage a network of factory TVs, letting administrators remotely push custom content and schedule broadcasts.
 - Deployed the application to the company's internal server for production use.
- Software Development Intern — Ooredoo Tunisia**
LAC2, Tunis (Onsite) · June 2024 – July 2024
- Built a web app (React, Spring Boot) enabling electronic signatures and automated generation of sales contracts, replacing a manual paperwork process.
- Summer Observation Intern — VACPA**
Boudjebel, Beni Khalled, Nabeul (Onsite) · August 2023
- Set up a GLPI ticketing system on a new server, migrating the existing database from the previous server.

- PROJECTS**
- JOURN(AI)IST (2026)**
- Cross-platform application centralizing multiple AI models to help journalists research, write, and publish news faster.
- Scribo (2025)**
- Cross-platform mobile app (Android/iOS) integrating AI features to help university students with coursework.
- Confero (2025)**
- Desktop application (JavaFX) and companion website (PHP/Symfony) for business-grade hotel management — bookings, events, and car rentals.

- EDUCATION**
- Software Engineering Student — ESPRIT School of Engineering**
2022 – Present (Expected graduation 2027)
- Preparatory School (MPI) — INSAT**
2019 – 2021
- Baccalaureate in Computer Science, with Honors — Lycée Nahj Menzah**
Beni Khalled, Nabeul, Tunisia · 2019
